I helped build the house on this lot. I put in many hours of labor and some of my own money. Please don't allow this to happen.

Please get online today and voice concerns/protest high voltage power lines being run through Hatchet Ranch Phase II, Lot 38 (my lot). The deadline is tomorrow. These lines would make my property worthless, have life threatening affects on my health, and be noisy, unsightly. Please go to www.socotransmission.com for more info and to voice concerns. It's map 10. Another address to send complaints is dennis.rankin@wdc.usda.gov. The deadline is tomorrow. Please help. I've put too much work into this place to just lose it all because of the greed of power company people. We all know these power lines are directly linked to cancer, leukemia, etc. I did all this for peace and quiet and solitude etc.

Thanks

Heidi
